

IntraEco-Bath

Are you familiar with the organic alternative to battle lameness?

INTRA ECO-BATH: READY FOR A FRESH AND GREEN FUTURE

Intra Eco-Bath is a newly developed, innovative hoof bath solution to maintain and support healthy hooves and dermis. Based on natural ingredients the product fits in the European organic farming philosophy. Passing the bath will give the hooves a fresh green colour, which clearly indicates which ones have passed. The fresh minty smell stimulates all cows to easily walk through without hesitation.

5 REASONS TO CHOOSE INTRA ECO-BATH

- ✓ Maintenance of lameness < 5%
- ✓ A unique organic composition with chelated zinc and essential oils
- ✓ Strong adhesion for fresh green hooves
- ✓ Long-lasting activity, determined by Intra Eco-Bath strips
- ✓ Safe and friendly for cow, farmer and biogas manure digester

Even after **250 COW** passages the bath remains fresh and green

Thanks to a **UNIQUE ORGANIC BLEND** pathogenic bacterial growth is suppressed

Essential **PEPPERMINT OIL** relieves joint and muscle pains and acts as a natural air freshener

LAMENESS REDUCTION IMPROVES ANIMAL WELFARE

The **Intra Hoof & Skin Care Programme** includes products to apply individually as well as products for full herd maintenance. This green concept is **farmers' first choice!**
